

WEBINAR SESSION 9 (May 2019) – RECOMMENDATIONS FOR ACTION

WASH Technologies for Healthcare Facilities

These recommendations provide insight for addressing gaps in technologies for WASH in HCF.

1. Develop and implement technologies for WASH in HCF.
 - Promote innovation to fill gaps in sanitation technologies.
 - Scale current WASH technologies for use in HCF.
2. Promote the monitoring and evaluation of new technologies for WASH in HCF.
3. Disseminate information about technologies for WASH in HCF.
 - Share insight into the development, implementation and evaluation of WASH technologies for HCF.
